Yearly Report 2007

12/11/2007 18:40:43 - 12/31/2007 23:59:59

**Top Visitors**

This page identifies the IP address, domain name, or cookie of each visitor, and identifies the visitor's relative activity level on the site. If you use cookies to track visits, Reporting Center can differentiate between hits from different visitors with the same IP address.

**Top Visitors**

<b>Other</b>		<b>3,558</b>	<b>88.44%</b>
<b>Total</b>		<b>4,023</b>	<b>100.00%</b>

**Top Visitors - Help Card**

**Visitor** - The IP address, domain name, or cookie of the visitor.

**Visits** - Number of times the specified visitor visited your site. A visit is a series of actions that begins when a visitor views their first page from the server, and ends when the visitor leaves the site or remains idle beyond the idle-time limit. The default idle-time limit is thirty minutes. This time limit can be changed by the system administrator.

**%** - Percentage of visits to your site by the specified visitor.

--

Consider the visitors who use the site most, and tailor your site to their interests and needs. If your site is an intranet, notice which employees use the site most, and find out what they like about it. You might also get feedback from those who use it the least and find out what they are looking for.

**Note:** If a visitor has a dynamic IP address, or if a group of visitors are behind a proxy server or firewall, this data might be misleading. In the case of a dynamic IP address, multiple IP addresses could be shown for a single visitor, and in the case of a firewall or proxy server, one IP address could be used by more than one visitor.

**Top Visitors by Hits - Help Card**

**Hits** - Number of hits attributed to the specified visitor. Each file requested by a visitor registers as a hit. There can be several hits on each page. While the volume of hits reflects the amount of server traffic, it is not an accurate reflection of the number of pages viewed.

**Visitor** - The IP address, domain name, or cookie of the visitor.

**%** - Percentage of total hits attributed to the specified visitor.
